Compendium Developments, United Kingdom, 2015. Paperback. Condition: New. Language: English. Brand new Book. This book is for people who want to learn Java. Particularly people on a team that want to learn Java, but who aren't going to be coding the main Java application i.e. Testers, Managers, Business Analysts, Front End Developers, Designers, etc.If you already know Java then this book may not be for you.This book is aimed at beginners. Designed to help the reader get started fast, the book is easy to follow, and has examples related to testing.You can find the companion web site for the book at http: The book covers 'just enough' to get people writing tests and abstraction layers.
